

Preferred Caterers June 2018

At MDC, we know that if a vendor's services are not top-notch, everyone can suffer. Therefore, we require that space rental clients who wish to have meals delivered to MDC, use one of our approved caterers. We continually evaluate service of caterers on the list below to ensure that only the most dependable and professional vendors are listed, not to mention quality of the product they provide. MDC is also proud to promote and include many minority and woman-owned businesses on our list.

We work to select vendors with proven reputation for excellence and update our Approved Caterer list frequently. These vendors have toured our facilities and are familiar with the logistics of working out of our space. This familiarity is important because vendors who know our space can be effective, responsive and reliable when it comes to delivering on time with excellent results.

If you desire to use a caterer not on our list, please ask them to contact our space rental manager for consideration and review.

Note: Rental clients are responsible for the contract(s) with any chosen vendor(s).
